

COVID-19 SITUATION REPORT

WEEKLY EPIDEMIOLOGICAL REPORT 54

Epi Week 42: 17th – 24th October 2021

DATA AS REPORTED AND ACCURATE BY NCDC AS AT MIDNIGHT 24TH OCTOBER 2021

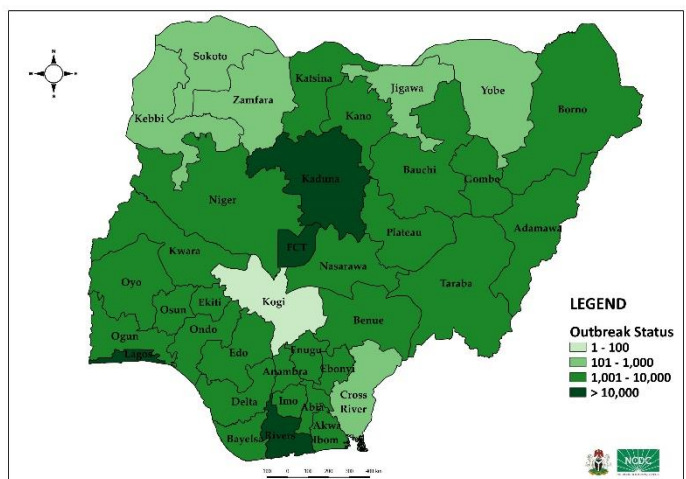

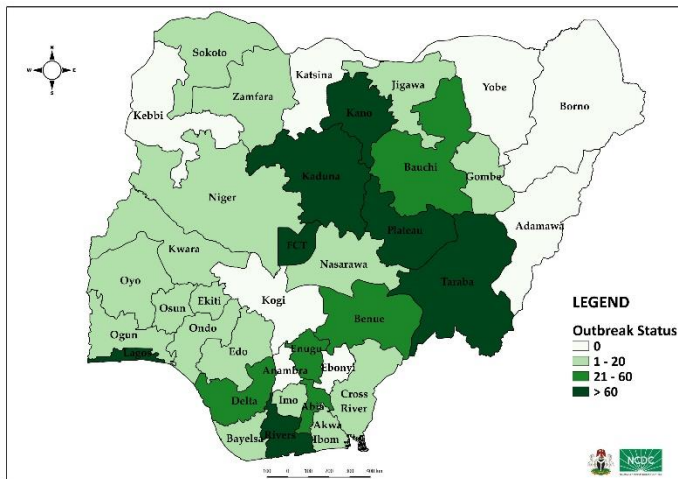

Fig 1. Distribution of cases (Epi Week 42 only)

Fig 2. Distribution of cumulative cases

HIGHLIGHTS

- In Week 42, the number of new confirmed cases decreased to **1,162** from **1,604** reported in week 41. These were reported in **28** states and FCT (Tables 1 & 2).
- In Week 42, the number of discharged cases increased to **5,236** from **1,869** in week 41. These were reported in **18** states and FCT (Tables 1 & 3). This includes community discharges reported from Edo and Lagos States.
- There were **45** deaths reported in the last one week (Tables 1 & 4).
- Cumulatively, since the outbreak began in Week 9, 2020 there have been **210,460** cases and **2,882** deaths reported with a case fatality rate (CFR) of **1.4%** (Tables 1 & 4).
- In Week 42, the number of in-bound international travellers tested was **2,894** of which **25** were positive compared to **34** (out of **3,673** tested) in week 41.
- In Week 42, the number of out-bound international travellers tested was **4,541** of which **65** were positive compared to **77** (out of **5,923** tested) in week 41.
- Worldwide, there has been **243,857,028** confirmed COVID-19 cases with **4,953,246** deaths resulting in a case fatality rate of **2.0%**.

GENERAL FACT SHEET – DATA AS AT 24TH OCTOBER 2021

Table 1: States with reported laboratory-confirmed COVID-19 cases, recoveries, deaths, samples tested and active cases.

STATE	CONFIRMED		RECOVERIES		DEATHS		ACTIVE CASES	TESTING

IN FOCUS: Release of a Revised Protocol for Travel into Nigeria

The COVID-19 pandemic resulted in a range of restrictions to international travel worldwide. Although these restrictions are now being eased, the extent of progress on the journey towards a full return to pre-COVID-19 travel still varies substantially by country. Travel restrictions continue to be reviewed and revised on evidence-based assessments of transmission risk that take into account local and global disease patterns including genomic surveillance for variants.

In Nigeria, the Presidential Steering Committee on COVID-19 has released a revised [travel protocol for incoming travellers](#). This is aimed at achieving a balance between efforts to return fully to open travel as a boost to the economic and those required to limit the spread of COVID-19 and variants of concern.

The revised protocol for travel into Nigeria stipulates the following:

- All travellers are required to upload a negative COVID-19 test result conducted within 72 hours of boarding onto the Nigeria International Travel Portal (nitp.ncdc.gov.ng) website and present a print-out at the airport upon check-in and arrival
- Unvaccinated and partially vaccinated inbound passengers will be required to observe a mandatory 7-day self-isolation in addition to a COVID-19 PCR test on days 2 and 7 after arrival
- Fully vaccinated inbound passengers will not be required to observe the mandatory 7-days self-isolation but will be required to do a COVID-19 PCR test on day 2 of arrival
- Travellers who will be staying less than 7 days in Nigeria must:
 - a. be fully vaccinated
 - b. produce a negative COVID-19 PCR result 72 hours before boarding; and
 - c. conduct a PCR test on day 2 of their arrival

As countries continue to experience case peaks and troughs, there is a need to sustain the COVID-19 response through testing, surveillance, risk communications, case management, and the administration of vaccines. Approved COVID-19 vaccines are safe and effective, and significantly reduce the incidence of severe cases of disease and hospitalisations. As vaccines do not eliminate the risk of acquiring and transmitting the virus, it is important to continue to adhere to recommended safety measures (hand washing, use of face masks, proper respiratory etiquette, and avoidance of large gatherings). Pre- and post-arrival COVID-19 PCR testing allows health authorities to reduce this risk of transmission/importation of the virus. If you develop symptoms of COVID-19 while in self-isolation, please contact your state emergency helpline [here](#) or the NCDC toll-free number 6232 immediately.

Although fully vaccinated incoming travellers are not required to self-isolate, they are advised to avoid contact with others as much as possible, until they carry out their post arrival test. NCDC strongly urges the public to continue to adhere to all COVID-19 preventive measures.

RESPONSE

On 28th February 2020, a multi-sectoral Emergency Operations Centre (EOC) was activated at Level 3 which is the highest emergency level in Nigeria. This is led by NCDC in close coordination with the State Public Health EOCs (PHEOC) and through the deployment of **59** Rapid Response Teams (RRT) to states. Currently, response activities include:

- Continued engagement with states to ensure regular reporting and response continuity
- Continued roll out of antigen based rapid diagnostic test (Ag-RDT) kits in collaboration with partners
- Continued tracking and collation of data from states for strategic coordination
- Ongoing COVID-19 vaccine effectiveness study in collaboration with National Primary Health Care Development Agency (NPHCDA) and the World Health Organisation (WHO)
- Ongoing data collection on COVID-19 vaccine hesitancy study
- Continued collation of reports on COVID-19 clinical management study
- Ongoing study on knowledge and compliance of health care workers to infection prevention and control (IPC) measures in the control of COVID-19 infection
- Ongoing research on drivers of mortality prognostic factors and other health sector challenges associated with COVID-19 deaths in treatment centres in Abia, Delta, Edo, Kaduna, Kano, Lagos, Niger, Ogun, Oyo, Plateau, Rivers, & Yobe States and Federal Capital Territory (FCT)
- Concluded training of community volunteers in 15 states to support case finding and contact tracing
- Pilot of approach to active case search and contact tracing in Kaduna State with plan to roll-out in other states across the country
- Continued follow up with states for daily reporting, contact tracing and key challenges
- Ongoing enhanced surveillance at points of entry
- Ongoing support for the safe school reopening conference in collaboration with risk communication and state surveillance teams at the ECOWAS building
- Ongoing COVID-19 training of health care workers under the Nigeria Armed Forces medical wing
- Developed and disseminated the NCDC IPC manual to health facilities
- Ongoing investigation of cases of healthcare worker infection in collaboration with Federal Capital Territory Administration (FCTA) COVID-19 response team
- Ongoing Nigeria Capacity Development (NiCaDe) change agent training for Health facilities in FCT
- Ongoing process to establish State IPC programme
- Ongoing assessment of 30 health facilities in the Federal Capital Territory (FCT) and Nasarawa State for IPC implementation in collaboration with Institute of Human Virology Nigeria (IHVN)
- Supported Economic Community of West African States (ECOWAS) with RDT testing of members of staff at Economic Community of West African States (ECOWAS)
- Supported Ministry of Labour and Employment with Ag-RDT testing at the sensitisation workshop to mitigate the spread of COVID-19
- Ongoing sequencing of positive samples among travellers to Nigeria and positive cases detected in-country, at the National Reference Laboratory (NRL), Gaduwa
- Supported Federal Medical Centre (FMC); Jalingo, Defence Reference Laboratory; FCT and Yusuf Dantsoho Memorial Hospital; Kaduna with laboratory consumables and personal protective equipment (PPE)
- Supported Niger & Edo States Ministry of Health (SMoH) and National Youth Service Corps (NYSC) Batch C Stream I Exercise with sample collection consumables and RDT kits for increase COVID-19 testing

- Ongoing quarterly commodity monitoring and stock verification exercise to reconcile data across states, check available stock balance and utilisation records
- Ongoing prepositioning of PPE and commodities at the sub-national level for labs, treatment centres, sample collection centres and other relevant facilities as preparedness for surge in cases
- Integrated COVID-19 messages by leveraging on the cholera RRT sent to Oyo, Kebbi, Adamawa, Sokoto, Gombe and Yobe states
- Disseminated safety guidelines for conducting events and conferences in Nigeria
- Continued support to National Primary Health Care Development Agency (NPHCDA) in COVID-19 vaccination campaign
- Ongoing media appearances on radio and television

PREPAREDNESS

Since the confirmation of the first case on 27th February 2020, the NCDC has released advisories and statements to help Nigerians and affected groups to respond to the pandemic:

- Presidential Steering Committee on COVID-19 released a press statement on [Revised International Travel Protocol into Nigeria](#)
- NCDC published [COVID-19 safety guidelines for Conferences and Events in Nigeria](#)
- NCDC issued a press release on the [detection of the first confirmed case of delta variant of SARS-CoV-2 in Nigeria](#)
- Presidential Steering Committee on COVID-19 reviewed and published [Travel advisory for passengers arriving Nigeria from Brazil, India and Turkey to include South Africa](#)
- Presidential Steering Committee on COVID-19 published [Travel advisory for passengers arriving Nigeria from Brazil, India and Turkey](#)
- Presidential Steering Committee on COVID-19 published [Implementation guidelines for phased restriction of movement](#)
- NCDC published [One year of COVID-19 response in Nigeria](#)
- NCDC and NIMR publish [findings of COVID-19 household seroprevalence surveys in four states of Nigeria](#)
- NCDC published a [Statement on variants of SARS-CoV-2 in Nigeria](#)
- The Federal Ministry of Education (FME) and partners, PTF and NCDC have developed: [Guidance for integrated safe school re-opening 26th January 2021](#)
- COVID-19 Health Protection Regulation signed by President Muhammadu Buhari on 26th January 2021: [Coronavirus Disease \(COVID-19\) Health Protection Regulations 2021](#)
