

# COVID-19 SITUATION REPORT

## WEEKLY EPIDEMIOLOGICAL REPORT 31

Epi Week 19: 10<sup>th</sup> – 16<sup>th</sup> May 2021

DATA AS REPORTED AND ACCURATE BY NCDC AS AT MIDNIGHT 16<sup>TH</sup> MAY 2021

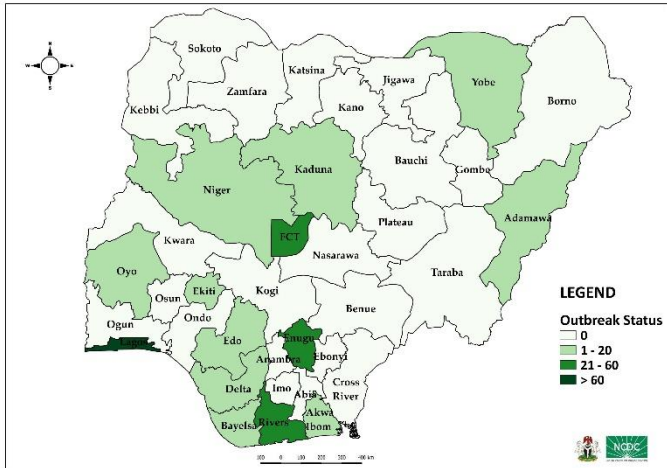

Fig 1. Distribution of cases (Epi Week 19 only)

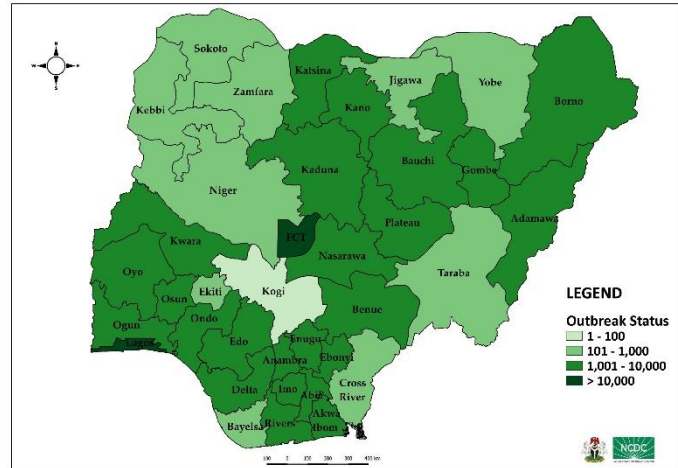

Fig 2. Distribution of cumulative cases

## HIGHLIGHTS

- In Week 19, the number of new confirmed cases increased to **290** from **238** reported in week 18. These were reported in **15** states and FCT (Tables 1 & 3).
- In Week 19, the number of discharged cases decreased to **116** from **936** in week 18. These were reported in **9** states and FCT (Tables 1 & 4).
- The number of reported deaths in the last one week was **1 (Ogun State)** (Tables 1 & 5).
- Cumulatively, since the outbreak began in Week 9, 2020 there have been **165,709** cases and **2,066** deaths reported with a case fatality rate (CFR) of **1.2%** (Tables 1 & 5).
- In Week 19, the number of in-bound international travellers at Nigerian airports was **15,669** compared with **13,330** in Week 18.
- In Week 19, the number of international travellers with a positive result was **42** compared to **16** from week 18.
- Globally, the count for confirmed COVID-19 cases is **162,773,940** with **3,375,573** deaths resulting in a case fatality rate of **2.1%**.

## GENERAL FACT SHEET – DATA AS AT 16<sup>TH</sup> MAY 2021

The chart displays the daily count of confirmed COVID-19 cases in the United States. The Y-axis, labeled 'Number of Confirmed', ranges from 0 to 2500. The X-axis shows dates from February 25, 2020, to May 16, 2021. The 'Alive' series (green) shows a significant peak in early 2021, reaching nearly 2400 cases. The 'Dead' series (red) remains very low throughout the period.

## IN FOCUS: A Global View: New Variants, Upsurge in Cases and International Travel

As national COVID-19 response activities continue, NCDC with support from partners, continues to monitor the global epidemiological situation. In the last six weeks, there has been an increase in COVID-19 cases in several countries, accompanied with an increasing detection of variants of concern.

In last week's COVID-19 weekly epidemiological update published by WHO (18<sup>th</sup> May, 2021), the highest number of COVID-19 cases were reported from Brazil in the Region of the Americas (423,438 cases), Turkey in the European region (166,733 cases), and India in the South-East Asia region (2,738,957 cases). Additionally, there is an increase in the number of cases with variants of concern reported from these countries.

To minimise the risk of a surge in the number of COVID-19 cases in Nigeria, the Presidential Steering Committee on COVID-19 announced a restriction on entry into Nigeria for travellers coming from these three countries. Any person who has visited Brazil, India or Turkey within 14 days preceding travel to Nigeria shall be denied entry into Nigeria. See full statement [here](#).

While the restriction of travel is important to reduce the risk of a surge in COVID-19 cases, it must be accompanied by adherence to public health and social measures in Nigeria.

New variants of the coronavirus continue to emerge. A few have caused concern globally because they are contagious and spread fast. The measures to protect yourself from getting infected with a variant of concern are similar to the measures to prevent infection from the original strain of the virus. Important measures to take include:

1. It is safer to meet outdoors than indoors, with people outside your household. You are most likely to contract the virus if you spend time in an enclosed space breathing the air of an infected person
2. Wear a mask when in public settings such as taxis, religious centres, markets, workplace etc.
3. Avoid crowds, and keep a distance of at least two metres from the next person
4. Wash your hands often with soap and running water and avoid touching your face. Use an alcohol-based hand sanitiser if water is not immediately available
5. If you feel ill and have symptoms such as fever, sudden loss of sense of taste or smell or a new continuous cough, please avoid contact with people immediately. Visit an accredited health facility for sample collection and testing

The Presidential Steering Committee has also approved an [updated travel guideline](#) for travelers to Nigeria from other countries. These measures are extremely important to ensure prompt detection of cases and early initiation of response activities. We appeal to all travelers to Nigeria to adhere to these guidelines and avoid all non-essential travel.

Finally, the Government of Nigeria continues to ensure the continuity of COVID-19 response activities including vaccination, timely laboratory testing, risk communications among others. We appeal to Nigerians to take responsibility by adhering to the measures in place, as we work towards controlling the acute phase of the COVID-19 pandemic in Nigeria.

## RESPONSE

On 28<sup>th</sup> February 2020, a multi-sectoral Emergency Operations Centre (EOC) was activated at Level 3 which is the highest emergency level in Nigeria. This is led by NCDC in close coordination with the State Public Health EOCs (PHEOC) and through the deployment of **53** Rapid Response Teams (RRT) to states. Currently, response activities include:

- **Commence the implementation and tracking of the updated national Incident Action Plan (IAP)**
- **Continued tracking and collation of data from states for strategic coordination**
- **Sensitised schools, hospitals, patients and relations and religious bodies on hand hygiene**
- **Conducted media appearances and interviews on hand hygiene**
- **Optimised and activated the University of Ilorin Molecular Laboratory and University of Ilorin Teaching Hospital Molecular Laboratories as public COVID-19 testing labs in Kwara state**
- **Optimised the FCT Molecular Laboratory in Kubwa for COVID-19 testing**
- **Ongoing monthly distribution of IPC commodities across treatment centres and State Ministry of Health in the South-East, South-West, and North Central zones**
- **Ongoing distribution and logistics planning with UNICEF to support the primary health care facilities across the country with IPC supplies**
- **Supported NYSC with Ag-RDT Testing kits, sample collection consumables and other IPC materials for the 2021 Batch A stream II orientation exercise**
- **Conducted advocacy to FCT Local Council areas and media stations on the forthcoming seroprevalence survey**
- **Conducted monthly meeting with State Health Promotion Officers: Discussed plans for preventing surge in cases**
- **Supported Africa Check to train media network on factchecking and misinformation management**
- **Developed campaign plan given high risk of an increase in cases**
- **Established mechanisms and an intervention plan for antigen rapid diagnostic test kit (Ag-RDT) scale up throughout the country**
- **Completed State Incident Action Plan (IAP) supervisory visits to 35 States and FCT**
- **Continued intensivist training in conjunction with WHO & Anesthetic Association of Nigeria.**
- **Meeting held on WHO Oxygen support to the country**
- **Continued follow up with states for daily reporting, contact tracing and key challenges**
- **Identified and shared prioritised IAP activities with EOC**
- **Supported the training of hotel staff and hygienists in hotels to be used as quarantine centres in Lagos as approved by the Presidential Steering Committee (PSC)**
- **Conducted advocacy visit to the management of Federal Medical Centre (FMC), Jabi, FCT in commemoration of Hand Hygiene Day**
- **Conducted SWOT analysis of health facilities across the Federal Capital Territory (FCT)**

- Supported monitoring and supervision of IPC and vaccination activities in health facilities
- Conducted monitoring and supervision of IPC activities in health facilities in Plateau State
- Conducted sensitisation lectures on IPC in schools and places of worship in Jigawa and Kwara States
- Optimised and activated Life-bridge and Biosensors Medical Diagnostics as a fee-paying COVID-19 testing laboratory in FCT
- Ongoing deployment of Lumira DX Test Kits and equipment to Imo, Ebonyi, Kaduna, Oyo and Enugu
- Activated Umaru Shehu Ultramodern Hospital PCR Laboratory, Borno State as a public laboratory for COVID-19 testing
- Ongoing genomic sequencing of all positive samples from travellers arriving in Nigeria
- Deployed PPE and consumables to laboratory network in Kaduna, Kwara, Akwa Ibom, Gombe and Jigawa States
- Worked with religious leaders in developing and disseminating messages for Eid
- Conducted meeting with national stakeholders including Health Educators
- Supported the deployment of Ag-RDTs in Internally Displaced Persons' (IDPs) Camp in Abuja
- Ongoing media appearances on radio and television
- Intensified tracking of stakeholders' activities at state and national level to monitor progress of implementation and provide feedback

## PREPAREDNESS

Since the confirmation of the first case on 27<sup>th</sup> February 2020, the NCDC has released advisories and statements to help Nigerians and affected groups in particular to respond to the pandemic

- NCDC published [One year of COVID-19 response in Nigeria](#)
- NCDC and NIMR publish [findings of COVID-19 household seroprevalence surveys in four states of Nigeria](#)
- NCDC published a [Statement on variants of SARS-CoV-2 in Nigeria](#)
- The Federal Ministry of Education (FME) and partners, PTF and NCDC have developed: [Guidance for integrated safe school re-opening 26<sup>th</sup> January 2021](#)
- COVID-19 Health Protection Regulation signed by President Muhammadu Buhari on 26<sup>th</sup> January 2021: [Coronavirus Disease \(COVID-19\) Health Protection Regulations 2021](#)
- NCDC published an updated [community case definitions for coronavirus disease 2019](#)
- The Federal Ministry of Health and NCDC published [COVID-19 Patient's handbook for home-based care in Nigeria](#)
- NCDC published an updated [case definitions for coronavirus disease](#)
- NCDC published [Guidance for the use of approved COVID-19 antigen-based rapid diagnostic tests in Nigeria](#)
- Update of [travel protocols](#) for all travellers into Nigeria from [UK and South Africa](#)
- NCDC recently launched the [Celebrate Responsibly](#) campaign in response to the increase in cases of coronavirus disease (COVID-19) and poor adherence to public

health and social measures across the country: [Celebrate Responsibly and Save Lives – New Awareness Campaign for the Yuletide Season](#)

- Ahead of the Christmas and end of year festivity, NCDC published the [End-of-Year Travel Advisory on COVID-19](#)
- NCDC recently launched the [COVID-19 blog](#) for telling the stories of Nigeria's response to the COVID-19 pandemic.
- NCDC published guidelines on 2020 National Youth Service Corps (NYSC) Orientation Camp activities in conjunction with PTF and NYSC: [Guidelines on 2020 National Youth Service Corps \(NYSC\) Orientation Camp activities](#)
- NCDC published guidance on the use of antigen RDTs: [Guidance on the use of Antigen Rapid Diagnostic Kits for diagnosis of SARS-CoV-2 infection in Nigeria](#)
- NCDC published guidance on safe school re-opening: [Public Health guidance for Safe School re-opening in Nigeria](#)
- NCDC published second interim guidance – Infection Prevention and Control: [Recommendations during health care provision for suspected and confirmed cases of COVID-19](#)
- NCDC recently published the first edition of a quick reference guide on setting up sample collection centre - [A step by step guide on setting up a sample collection centre](#)
- NCDC has launched an online course on [Infection, Prevention and Control \(IPC\) for COVID-19](#) NCDC eLearning platform
- Ahead of forthcoming elections in the country, NCDC has issued [Guidelines for Conducting Elections During the COVID-19 Outbreak in Nigeria](#).
- To protect our elders, and those with pre-existing medical conditions, NCDC has issued an [Advisory for Vulnerable Groups](#).
- NCDC has released [guidelines on the re-opening of places for worship](#).
- NCDC has released [Strategies to Improve Surveillance for COVID-19 Guidance for States](#)
- The Nigeria Police Force has released COVID-19 operational guidelines for the [Police and other Law Enforcement Agencies](#) in Nigeria
- Guidelines have been issued for the [safe transportation of remains of persons suspected or confirmed to have died of COVID-19](#)
- Information on diagnostics of the COVID-19 virus can be found in our [detailed FAQ document](#).
- To increase our testing capacity, NCDC has issued guidelines for the [integration of private labs](#).
- Guidelines for [businesses and employers](#) have been updated.
- NCDC has updated its [case definition](#) , [community case definition](#) and [case management guide](#).
- NCDC releases periodic [public health advisories](#) to Nigerians on the COVID-19 disease.
- To adhere to post-lockdown measures, NCDC has released an [advisory on the use of face masks](#), as well as information on the [Use of Cloth face masks](#) and [how to make your cloth face masks](#).
- NCDC has released guidelines for the [management of pregnant women and nursing mothers](#) during the pandemic.
- To address burials of loved ones who die from COVID-19, guidelines have been issued to advise on the [management of dead bodies](#).
- For health centres managing cases, the following documents have been released- a guideline for the [Rational Use of Personal Protective Equipment in the care of COVID-19 cases](#).

- As part of plans to increase the testing capacity of the country, the NCDC published a [\*National Strategy to Scale Up Access to Coronavirus Disease Testing in Nigeria\*](#) document.
- The Presidential Task Force has published policies and announcements on COVID-19 [\*available on the website of the Presidency\*](#) – including presidential addresses, task force updates and information on livelihood and economic support.
